STORY

Girls choose their own destiny to make their wishes come true through card battles.

"Wixoss", the card game, is a huge boom.

It's not just a card game for boys, but has also become popular among girls, which started the boom.

The main character, Ruuko, is a girl who is difficult to read and she has no friends.

One day her older brother gives her a pack of cards to help her make friends.

Ruuko notices she can hear a voice from one of the cards in the pack.

This is how she comes across the chosen card "Sakasa Shoji (upside down girl): Tama".

Then she is challenged to a game by another girl called Yuzuki.

According to Yuzuki, the girl who has the chosen "Sakasa Shoji" card can become "Mugen Shoji (girl with all the dreams)" whose dreams will all come true by battling against other girls who also hold the chosen "Sakasa Shoji" card.

The story develops into the battles between girls holding the chosen cards to have their wishes come true.
