A popular teen comic with more than 1.5 million copies sold comes to the big screen!

Original work is by Rin Mikimoto, who has created many love stories for everyone's dreams, including "Close Range Love", successfully adapted to film recently. "Kyo no Kira-kun" has been particularly popular among her works and caused "Kyo-kira storm" with its sweet characters and heart-twinging storyline, and it has finally been adapted to film!

Directed by Taisuke Kawamura of "L♥DK" and "Princess Jellyfish". The theme song is by 【Alexandros】 who is rapidly gaining in popularity. The original love ballad adds warmth to the ending.
